Self-evaluation

I am expecting to receive my Bachelor of Science degree in Mechanical Engineering From University of South Carolina in May 2016. My career goals include a desire to advance in the area of technical management. I am ready to discuss my credentials with you at your convenience.

Cover Letter

Dear Ms.Kathy Andrews

At the suggestion of Mr Dick Holmes,i am writing to apply a position in the Instrumentation and Control Group.My work experience in instrumentation should be of value to the group' s latest project, as should my engineering experience at University of South Carolina in automatic control and power plant systems.

My credential include:

Employment as an engineering acid to Prof.White.I independently researched some practical problems assigned by Prof.White,who has a long-time cooperation with the local power and light company.(Ref.George White,phone:803-000-0000)

Employment as a student engineer with Daniels

International Corporation at Charlotte.I researched material for input into the component control systems, checking data for authenticity and inputting the data to update the system.(Ref. Sherman Clinton, lead Superintendent)

I am expecting to receive my Bachelor of Science degree in Mechanical Engineering From University of South Carolina in May 2016.My career goals include a desire to advance in the area of technical management. I am ready to discuss my credentials with you at your convenience. If this is possible, I can be reached at (803)000-0000.
